

FOR IMMEDIATE RELEASE

## Sullair Earns Prestigious Plant Engineering 2007 Product of the Year Award

Michigan City, IN, December 28, 2007 — Sullair Corporation received confirmation that the Sullair SRC Compressed Air Dryer has received the ***Plant Engineering* 2007 Product of the Year Gold Award**. The prestigious *Plant Engineering* Product of the Year Awards were established to honor the most innovative and useful products introduced to the industrial plant engineering market each year. This is the second consecutive year Sullair products have won the Gold award as the Sullair S-energy compressors won the 2006 Product of the Year Gold Award.

*Plant Engineering Magazine*, a Reed Business Information publication, is read by 100,000 individuals involved in manufacturing plant management, engineering, operations and maintenance. Products of the Year finalists in 16 different categories are chosen by a qualified group of senior engineers. The finalists are then voted on by *Plant Engineering* subscribers using a special online ballot. Awards range from Gold, Silver to Bronze and also include an overall Grand Award.

Sullair, a business unit of Hamilton Sundstrand, a United Technologies Company, is one of the world's leading compressor manufacturers and has been an industry leader and innovator since 1965. With subsidiaries in France, China and Australia, Sullair is also a globally recognized manufacturer of compressed air containment removal equipment, vacuum systems, and contractors' air tools.
